PROJECTS

MURAL LICENSE REVOCATION AUTOMATION
Oct 2024 – Jan 2025
1- **Automated the entire Mural License Revocation process** using Power Automate and Blue Prism to improve license management efficiency.
2- **Reduced data refactoring time by 80%** through optimized API-based upsert operations in Power Automate. Implemented automated reminder emails and clean data ingestion into Blue Prism queues for seamless downstream processing.

IGA APP PORTAL – SELF-SERVE APPLICATION ONBOARDING TOOL
Apr 2024 – Present
Designed and developed a self-serve onboarding portal using Power Apps, enabling business users to register applications. Integrated SailPoint APIs for dynamic entitlement group population and automated patching workflows using Power Automate.

NAIF WEB PORTAL (LOW CODE APPLICATION)
Jan 2024 – July 2024
1- **Designed and developed a centralized web portal** using Power Apps and SharePoint to effectively manage NAIF requests.
2- Replaced multiple Google Forms with a structured, user-friendly UI that supports easy additions of new request types.
3- **Centralized workflow logic to improve process scalability and reduce system clutter.**

EXCEL VALIDATION WITH POWER AUTOMATE
Apr 2024 – July 2024
Built a Power Automate flow to validate Excel data pre-submission, reducing RPA errors by flagging incomplete requests and notifying stakeholders for quick fixes.

MOVIE STREAMING WEBSITE
Jun 2022 – Oct 2022
Developed a movie streaming platform with ReactJS, NodeJS, and MongoDB featuring user authentication, real-time playback, and dynamic loading.
